iPhone CAMPUS setup

Apple iPhone 2.0/3G Wireless Profile

[iPhone Rave Profile](http://confluence.rave.ac.uk/confluence/x/fA0) (You can download from the Wiki <http://confluence.rave.ac.uk/confluence/x/fA0>).

This Profile will add the Certificate and configure an iPhone running 2.0 to connect to the Campus Network. You need to either click on the link via Safari on the iPhone or download it on your computer and then email it to an email account that you have setup on your iPhone.

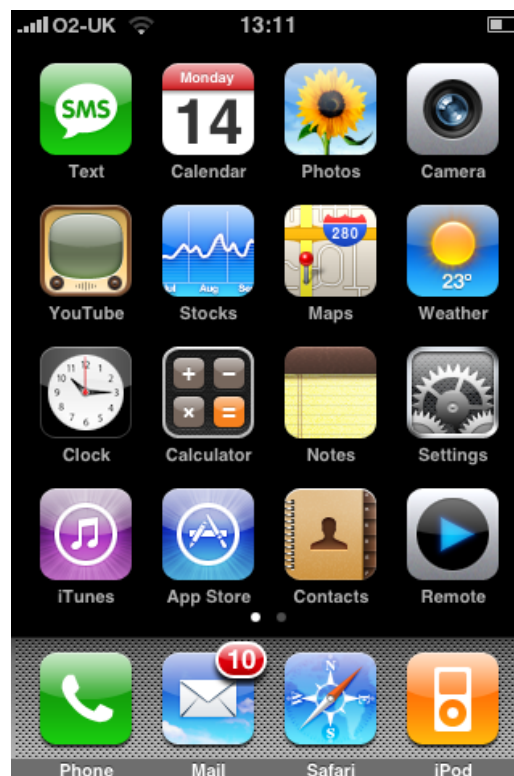

Depending on what you use you may have to set up the connection yourself.

What you want is:

CAMPUS SSID
802.1x authentication
TTLS
PAP

When installing it will prompt you for your user name and password for the Network. Once installed go to Settings>Wi-Fi> and Select CAMPUS

This is the Main Menu. Click On Settings

In Settings select Wi-Fi

Then select CAMPUS

To Remove the Ravensbourne Profile

Goto Settings>General and scroll down to Profile at the bottom

Select Profile and then Press Remove. This will remove the Ravensbourne Certificate and the 802.1x Profile
